What's OLD to YOU, is NEW to Someone ELSE!

HelpAidsOrphans.com helps clothe AIDS orphans with donations of clothing and school supplies which are distributed to children living in the hardest hit areas.

Working in support of the Nickelodeon Networks and in partnership with Planet Teen, the WNBA Washington Mystics, and others, the call to help these kids is definitely being heard.

By giving these youth clothing, we can help alleviate a concern that our organization is addressing, because clothing is a basic necessity they need. For many of these children, they could go to school if uniforms were provided, which can be donated at a menial cost on average of \$20, but for an AIDS orphan it is impossible for them to obtain the money. Even warm clothing needs to be donated, because not only is Africa a focus, Europe is dealing with this issue also.

The Africa AIDS Fund, Inc. task, through HelpAidsOrphans.com, of trying to clothe and supply such a huge class of orphans is in itself daunting. That is why we need every child that can, to send something; even if it's just a pair of socks, it will be most welcomed by us and by the orphaned children somewhere in the world.
